3. Planning Your Group Presentation

You will have <u>5 minutes</u> for your presentation.

Make the most of your time!

Before you present:

- Decide who will present your proposal

- Load your visuals (if any – not required!) on the presentation laptop

When you present, be sure to cover all of the following:

- Your group number (or cool name)

- The **problem** you are trying to solve or the **question** you are seeking to answer

- Describe your project, campaign, report or policy

- Tell who (people or groups) would carry it out

- Explain how you've used data

- Give credit to any prior research or work you used in developing your ideas

Your proposals will be judged on the following criteria:

- Likelihood that it will improve access to the arts
- Use of data
- Feasibility
- Creativity and innovation

A GUIDE TO MAKING THE MOST OF THE

LOS ANGELES
ARTS DATATHON

In three parts:
1. Introductions
2. Working in Small Groups
3. Planning Your Group Presentation

Los Angeles County Arts Commission   DCa

1. Introductions

We've set aside time in the morning for members of each group to introduce yourselves to each other. Please go around your circle using these as a guide:

Your name

The pronoun you prefer to be called

In three words or less, why are you here today?

What arts discipline do you practice (if any)?

What is your favorite kind of data (if any)?

Are you affiliated with a particular community?

Are you affiliated with a particular organization?

Feel free to add any of this information to your name tag as well.

2. Working in Your Groups

The focus of today's datathon is **access to the arts**. Data is the tool we will use to come up with new ideas for how we can improve access to the arts.

Here are a few suggestions for how to approach the work within your group:

1. Choose a problem to solve or question to answer

2. Find a relevant dataset (or two)

3. Explore the data

4. Discuss what you've learned

5. Develop your proposal

    Your proposal can be a project, campaign, report or policy

    It should **improve access to the arts** and be based on **data**

Extra credit: Come up with a cool name for your group!
